Dear Friends:

In recent years, Wilmington has been moving in newer and more exciting directions because we are doing a better job of sharing information about ideas and programs that benefit everyone living in Wilmington. If the progress we have made in recent years is to continue, it is vital that we know about each other, our respective organizations, and our respective goals. It is imperative that we continue to communicate with each other on the important issues that affect our daily lives.

We are always striving for ways to further improve communication and share important information with each other; hence, the Mayor's Office of Constituent Services once again presents an updated edition of the City's Community Organization Directory.

Inside these pages is the secret to our City's success. Here you'll find evidence of the remarkable partnership that exists between Wilmington's City Government and the neighborhood and community organizations, businesses, and social service agencies in our City. This lively spirit of collaboration and community is what has always made Wilmington such a beautiful and vibrant City. In good times and bad, a strong community is vitally important; after all, we are *in this together*.

Collaborative efforts between neighborhood and community groups throughout Wilmington continue as we adopt new approaches to working with each other and the City to improve and stabilize neighborhoods. The Community Organization Directory is intended to strengthen and improve alliances, so new community improvement ideas and programs can be formulated, and so we can strengthen those programs that are already working throughout the City.

My thanks to everyone who helped the Mayor's Office of Constituent Services update this important and useful directory.

Sincerely,

James M. Baker  
Mayor

Dear Neighbor:

I am proud to be able to help present the City of Wilmington's 2010 Community Organization Directory.

The directory is a valuable resource, whether you need information on human services, neighborhoods, religious organizations, or services for senior citizens. This document should be the first place you check for up to date agency information.

The quality of life we enjoy as City residents would not be possible without the continued efforts of these fine organizations.

It is my belief that knowledge is power, and I hope that you use this powerful tool to make our community a better place to live.

Best wishes,

Henry W. Supinski  
City Treasurer
