Reference Materials

Please consult the following documents for your reference when assembling plans for your project:

- Department Of Public Works Submission Guidelines And Checklist
- Wilmington Water Division Detail Standards And Specifications
- Wilmington Sewer Division Detail Standards And Specifications
- Wilmington City Vegetation Codes: Urban Forestry Details Standards and Specifications
- DNREC : Sediment And Stormwater Technical Document

Those submitting for plan review should allow for 4 weeks for approval from the time an acceptable application is received by the Department of Public Works. This time period is required for processing by the Department and other pertinent agencies. Large housing projects that require installation of numerous laterals or projects involving considerable main extensions will require a longer processing time.
