Executive Summary

ES-05 Executive Summary - 24 CFR 91.200(c), 91.220(b)

1. Introduction

Promulgated by the U.S. Department of Housing and Urban Development (HUD) for the City of Wilmington to receive federal funding for affordable housing and community development initiatives benefitting primarily low- and moderate-income persons. This Con Plan consolidates into a single document the planning and application requirements for the Community Development Block Grant (CDBG) program.

Con Plans must be prepared and submitted to HUD every three to five years. The City of Wilmington uses a five-year Con Plan cycle; this plan covers fiscal years 2025-2029. The purpose of the City's Con Plan is to:

- Assess the City's affordable housing and community development needs;
- Analyze the City's housing markets;
- Articulate the City's priorities, goals, and strategies to address identified needs; and
- Describe the actions the City will take to implement strategies for affordable housing and community development.

The Con Plan for FY 2025 – FY 2029 provides data on trends and conditions related to the City's current and future affordable housing and community development needs. The analysis of this data has been used to establish priorities, strategies, and actions that the City will undertake to address these needs over the next five years. Annually, the City will develop its Action Plan in which it describes the planned investment of federal resources to implement specific activities.

This Plan considers the increasing importance of identifying and prioritizing the most critical needs to be addressed with CDBG HOME, ESG, and HOPWA Program funds.

The Consolidated Plan consists of three major sections: a housing and community development needs assessment, a housing market analysis, and a strategic plan which identifies those priority housing and community development needs and strategies that the County plans to address with the available HUD resources over the next five years.

Data in the needs assessment, market analysis, and strategic plan sections of this plan were drawn primarily from HUD's Comprehensive Housing Affordability Strategy (CHAS) data set, which is a special tabulation of 2016-2020 American Community Survey (ACS) data from the Census Bureau. The CHAS data is a fixed set of data in pre-populated tables. The CHAS data describes housing problems, such as overcrowding or incomplete kitchen and/or plumbing facilities, as well as cost burden, which occurs when a household pays more than 30% of its gross income on housing costs. Extreme cost burden occurs when a household pays more than 50% of its gross income on housing costs.

The City of Wilmington was allocated \$2,261,378 in CDBG funds, \$477,885.02 in HOME funds, \$197,824 in ESG, and \$944,530 in HOPWA in FY 2025.

2. Summary of the objectives and outcomes identified in the Plan Needs Assessment Overview

Housing needs among residents of the City of Wilmington were determined by analyzing housing problems by income level, tenure, and households with special needs. For the Con Plan, sources included the Comprehensive Housing Affordability Strategy (CHAS) dataset, which is based on the 2016-2020 American Community Survey Five-Year Estimates. This source analyzes households with one or more housing problems (overcrowding, lacking adequate kitchen or plumbing facilities), and households experiencing cost burden and severe cost burden. The most significant housing issue identified was cost burden, defined as spending between 30-50% of household income on housing costs such as mortgage and rent payments, and severe cost-burden, defined as households spending more than 50% of their income on housing costs. According to CHAS data, 39.2% of households in the City are cost burdened, particularly households with incomes between 30-80% AMI. An even higher proportion of Wilmington households are severely cost-burdened, consisting 20.8% of households, particularly households with incomes between 0-50% AMI.

To address the identified housing needs, the City has established the following goals and outcomes to be achieved through the investment of its CDBG, HOME, ESG, and HOPWA resources in the first year. Please note that while there are less goals than the previous five-year consolidated plan, they have all been consolidated for simplicity's sake and still remain represented.

3. Evaluation of past performance

The summary of past performance reported below was taken from the City's most recently completed Consolidated Annual Plan Evaluation Report completed for fiscal year 2023 and submitted to HUD. The numbers reflect progress made toward the 2020-2024 Consolidated Plan during the first four years of the plan.

4. Summary of citizen participation process and consultation process

Stakeholder Interviews – A series of six stakeholder meetings and interviews were conducted between January 28-30, 2025, in partnership with New Castle County to discuss issues and opportunities related to housing and community development needs. Individuals representing government and policy makers, nonprofit organizations, affordable housing providers, and other interested parties were invited to participate to ensure that as many points-of-view as possible were heard. Participants are listed in PR-10.

Public Needs Hearing – One public needs hearing was held on January 16th, 2025, virtually to educate residents and organizations about the CDBG programs and obtain input on housing and community development needs.

Web-based Citizen Survey - The City conducted a web-based survey for the general public through January and February 2025, generating 17 responses in total. Questions focused on housing and community development needs.

Consolidated Plan Public Comment Period – A draft of the Consolidated Plan for FY 2025-2029 and the Annual Plan for FY 2025 was placed on public display for 30 days beginning June 2 through July 3, 2025.

Public Hearing – The City held a public hearing on June 23, 2025, at the City Offices located at 800 N French Street in conjunction with the RE&H Committee Meeting to obtain final comments on the proposed Consolidated Plan for FY 2025-2029 and the proposed use of funds for FY 2029.

5. Summary of public comments

Major needs highlighted during the public participation process include:

Affordable Housing

- New construction is expensive and time-consuming, making it inaccessible to many Wilmington residents and difficult for developers.
- There is a need to rehabilitate vacant, dilapidated properties in the city and bring them up to code.
- However, stakeholders report that it is difficult to get work done on these properties due to red tape and permitting
- There is a lack of workforce housing for workers like teachers, daycare workers, and police cadets.
- HUD FMRs may be too low – DSHA would be willing to offer more if it could alleviate some of the housing problems for vulnerable populations

Homeless and Special Needs Services

- Populations emphasized by stakeholders that are most commonly at-risk of homelessness include youths aging out of the foster care system, young adults, and unaccompanied youth; young parents and families; justice-involved individuals; survivors of domestic violence; the elderly; and persons with HIV/AIDS.
- Challenges that these populations commonly face include poor credit history, criminal records, lack of work-life balance due to lack of childcare services and after school programs, and accessible healthcare.
- However, there are limited resources available that are expected to be further constrained with homelessness being on the rise in Wilmington and the wide number of supportive services required for specific populations.

Workforce Development

- The lack of education, training, and qualifications are major barriers for many of the identified populations that are at-risk of homelessness. This also includes acquiring a driver's license.
- High-barrier groups include youths and justice-involved individuals due to lack of training/experience and criminal history.
- Partnering with institutions or agencies that can provide professional growth and are open to working with high-barrier groups would be helpful to alleviate the challenges they face
- There is a need for digital literacy programs for senior citizens as finding and connecting them to resources becomes increasingly more digitalized.

Improved Public Infrastructure Needs

- There is a need for healthier neighborhoods. While many residents consider Wilmington to be relatively walkable, there is a need for better roads, sidewalks, and access to grocery stores.
- Areas in need of these public infrastructure improvements include Riverside, Eastside, Westside, and Bridgeside.
- There is a need for improved sanitation and recycling.

AP-50 Geographic Distribution – 91.220(f)

Description of the geographic areas of the entitlement (including areas of low-income and minority concentration) where assistance will be directed

Assistance is not directed to any specific geographic area in the City of Wilmington. All funding will benefit LMI clientele and areas throughout the municipality.

Geographic Distribution

Target Area	Percentage of Funds
City-wide	100

Table 6 - Geographic Distribution

Rationale for the priorities for allocating investments geographically

Not all the housing and community development needs identified in this plan can be addressed over the next five years due primarily to the limited resources available. The selection of non-housing community development priorities within income-eligible areas reflects the City's desire to create appreciable and lasting living environment improvements. Housing priorities reflect the need to broaden the supply of affordable housing in high opportunity areas.

The system for establishing priority for the selection of these projects is predicated upon the following criteria:

- Meeting the statutory requirements of the CDBG Programs;
- Meeting the needs of low- and moderate-income residents;
- Focusing on low- and moderate-income areas or neighborhoods;
- Coordination and leveraging of resources;
- Response to expressed needs;
- Sustainability and/or long-term impact; and
- The ability to demonstrate measurable progress and success.

Discussion

Rental assistance includes 120 households assisted through rapid rehousing and 82 HOPWA units. The seven new units are being produced solely by Habitat for Humanity of New Castle County's Prices Run Affordable Homeownership Program. Housing rehab includes home repair and rehabilitation programs operated by the City of Wilmington, Woodlawn Trustees, Interfaith Community Housing, Ingleside Senior Services Housing Rehabilitation Program, and Cornerstone West Community Development Corporation.

AP-60 Public Housing – 91.220(h)

Introduction

The WHA manages and maintains 1,816 units, with 1,390 units occupied. While most of these properties are in areas of concentrated poverty and/or minorities, most of Wilmington also falls within these categories. Demand for public housing far outweighs supply of housing; the waiting list for public housing is closed. WHA is looking at other financing sources and housing opportunities to fulfill the demand for affordable housing.

Actions planned during the next year to address the needs to public housing

The following strategies were outlined in WHA's FY 2025 Annual Action Plan, with an added emphasis on working with landlords to increase housing availability for HCV holders when compared to the 2024 Annual Action Plan.

- Maximize the number of affordable units available to the PHA within its current resources by expediting repairs, constant monitoring, implementing energy efficiency programs, expedite the issuing, processing, and transition of HCV holders, and setting reasonable payment standards and occupancy standards, and assisting Public Housing residents and HCV participants to become self-sufficient.
- Increase the number of affordable housing units by applying for additional Section 8 units should they become available, pursue housing resources other than public housing or Section 8, replace units lost through the Section 32 Homeownership Program and mixed finance development, and use Replacement Housing Factor funds to construct/purchase new affordable housing, and collaborate with current and future landlords to increase housing availability for HCV participant families
- Target available assistance to families by continuing admissions preferences aimed at working families, enforcing rent policies supporting and encouraging work, apply for special-purpose vouchers for the elderly and persons with disabilities, carry out modifications based on Section 504 needs, and affirmatively marketing to local nonprofits that assist families with disabilities
- Conduct activities to affirmatively further fair housing by continuing participation with the Delaware State Consortium on Affirmatively Furthering Fair Housing, counseling, and assisting Section 8 tenants on units available outside of racially and ethnically concentrated areas of poverty (R/ECAPs), market the Section 8 program to owners residing outside of R/ECAPs, and expand partnerships with the State of Delaware and local housing authorities to reduce barriers and create more streamlined services for participation Section 8 landlords and voucher holders.

Actions to encourage public housing residents to become more involved in management and participate in homeownership

Each public housing property has an elected Resident Council to discuss and make recommendations on PHA plans. In addition to input, Resident Councils also collaborate and coordinate with WHA's Resident Services Department for capacity building, self-sufficiency, and program planning for residents.

The WHA goals and activities support homeownership.

- Continue to partner with agencies that provide financial management/credit services and housing counseling. This effort continues to foster relationships with new partners; HOND (Housing Opportunities of Northern Delaware), ABC Consulting, Interfaith Community Housing of Delaware, Neighborhood House, Meridian Bank, Artisans Bank, Huntington Valley Bank, PNC Bank, TD Bank, Stand-By-Me, Fresh Start and Kiss your Landlord Goodbye, Service Source, Credit Repair with Steven Byrd, Community Powered FCU, Keller Williams, eXp Realty LLC and Stepping Stones FCU.
- The Section 32 Comprehensive Homeownership (HO) Program WHA will continue to provide

active case management services to ROSS and FSS participants in the HO program to become ready future homebuyers or future market renters. There are currently 12 units in the Section 32 Homeownership Program.

If the PHA is designated as troubled, describe the manner in which financial assistance will be provided or other assistance

Wilmington Housing Authority is not designated as troubled.

AP-65 Homeless and Other Special Needs Activities – 91.220(i)

Introduction

Describe the jurisdictions one-year goals and actions for reducing and ending homelessness including

Reaching out to homeless persons (especially unsheltered persons) and assessing their individual needs

The City's federal funds will continue to support programs to provide decent and safe living environments for the homeless and those at risk of becoming homeless in FY 2025. Activities funded expecting to assist the homeless or those at-risk of becoming homeless include emergency shelter operations, housing rehabilitation, and other critical expenses, and rapid rehousing.

While no street outreach activities are funded in FY 2025, the City maintains support for the YMCA, YWCA, Catholic Charities, Ministry of Caring, Homeless Planning Council, Family Promise, Connection CSP and Salvation Army, which work together to provide outreach to the homeless population, including unsheltered persons. Several of the nonprofit social and human service agencies that provide services to the homeless and those at risk of becoming homeless leverage additional private funds used to operate emergency shelters, transitional housing facilities, and supportive housing facilities within Wilmington. These funds are also used to provide supportive services such as case management, counseling, job training, and life skills classes.

Addressing the emergency shelter and transitional housing needs of homeless persons

Wilmington is a member of the Delaware Continuum of Care (CoC), the primary program in the State addressing homelessness led by Housing Alliance Delaware. In their 2024 System Performance Measures, Housing Alliance Delaware identified that 83.4% of persons entering the system had no prior experience of homelessness, up from 68% in 2018.

Housing Alliance Delaware administers Centralized Intake services to coordinate access to emergency shelter, rapid re-housing, and permanent supportive housing. The CoC practices a Housing First model, providing shelter for individuals regardless of personal hardships or circumstances. Homeless services can be accessed through the Delaware 211 hotline, State Service Centers, or local homeless service providers such as a shelter or day center. Housing Alliance Delaware's HMIS system will be supported through the use of \$20,000 in ESG funds.

Emergency shelter and transitional housing needs will be supported in FY 2025 through Ministry of Caring's Emergency Solutions Program at four emergency shelter facilities. In addition to shelter, these facilities providing food, childcare, job placement services, distribution services, outreach, and case management. The program is expected to assist 350 individuals with emergency shelter through the use of \$50,000 in ESG funds.

Helping homeless persons (especially chronically homeless individuals and families, families with children, veterans and their families, and unaccompanied youth) make the transition to permanent housing and independent living, including shortening the period of time that individuals and families experience homelessness, facilitating access for homeless individuals and families to affordable housing units, and preventing individuals and families who were recently homeless from becoming homeless again

According to Housing Alliance Delaware, the highest risk of returning to homelessness after moving into housing occurs in the first twelve months. As a result, availability of services is most critical in the first year after returning to housing. The services mentioned previously also serve to help formerly individuals from becoming homeless again and maintain permanent housing. Additionally, stakeholders frequently mentioned the need for wraparound services to prevent homeless individuals from

re-entering the system.

As part of many service providers' emergency shelter and/or homeless prevention programs, supportive services to ensure that their clients able to maintain permanent housing in the long-term are provided. Activities planned for funding in FY2025 that provide these wraparound services include the Bayard House Residential Maternity Program for newly parenting young women (ages 12 to 27), Hospitality Center Transitional Housing and for families facing homelessness, Sojourner's Place's Transitional Housing program for adults, Central YMCA's Male Supportive Housing Program for single men, and YWCA's Home-Life Management Center for families. In total, nearly \$259,500 in CDBG funds and \$182,988 in ESG funds will be used to help prevent these vulnerable populations from becoming homeless again.

Helping low-income individuals and families avoid becoming homeless, especially extremely low-income individuals and families and those who are: being discharged from publicly funded institutions and systems of care (such as health care facilities, mental health facilities, foster care and other youth facilities, and corrections programs and institutions); or, receiving assistance from public or private agencies that address housing, health, social services, employment, education, or youth needs.

In addition to the previously mentioned homelessness prevention activities, the City of Wilmington plans to fund activities targeting youth aging out of the foster care system or are at risk of homelessness. West End Neighborhood House will receive \$45,969 in ESG funds to assist homeless youth aged 18-23 at their dedicated drop-in center. Transportation is offered to youths even without an appointment and provides access to essential services such as showers, laundry facilities, meals, mailboxes, and lockers. Case management is also provided to connect youths with shelter and other temporary housing solutions while more permanent housing accommodations are secured.

Additionally, West End Neighborhood House's Life Lines program provides essential low-income housing for former foster care and homeless youth, ensuring safe, stable living environments for individuals and families. Beyond housing, the program offers intensive case management, mental health support, substance abuse treatment, employment assistance, and educational resources.

AP-75 Barriers to affordable housing – 91.220(j)

Introduction:

According to stakeholders, the general lack of housing supply and mismatch of available jobs compared to the existing workforce's level of education and training make finding affordable housing difficult for residents. Other issues such as mental health, physical disabilities, lack of certifications and licenses, and childcare create additional challenges for finding appropriate, affordable housing.

Developers cite high costs for new construction as their biggest barrier to developing affordable housing. Wilmington is almost entirely developed, making new construction costly. There is a need for sufficient secondary subsidies if the City wants to pursue new construction. As a result, rehabilitation will be the primary focus for generating new affordable housing options, especially due to the age of housing in the City.

Actions it planned to remove or ameliorate the negative effects of public policies that serve as barriers to affordable housing such as land use controls, tax policies affecting land, zoning ordinances, building codes, fees and charges, growth limitations, and policies affecting the return on residential investment

With the City of Wilmington being almost entirely developed, there is an emphasis on housing rehabilitation to bring housing up to code and due to difficulties in constructing new housing due to high costs and lack of space. In FY 2025, expects to invest \$737,238 in CDBG funds and \$631,876 in HOME funds to build 7 new townhomes and rehabilitate 55 owner-occupied housing units and 32 renter-occupied housing units.

Additionally, the City's Department of Real Estate and Housing (RE&H) is going to continue to offer the First Start Homebuyer Program for income-eligible households, which will receive \$259,538 in CDBG funds. Each applicant will be eligible for assistance totaling the lesser of \$15,000 or 6% of a property purchase price. A minimal contribution of \$1,000 is required from the buyer. The funds may be used for down payments or closing costs. It is expected that 15 households will receive assistance just from CDBG funds.

AP-85 Other Actions – 91.220(k)

Introduction:

Over the next year, Wilmington plans the following actions to help address the housing and community development needs of City residents, especially low and moderate-income residents.

Actions planned to address obstacles to meeting underserved needs

The City will continue to cooperate with various non-profit agencies and developers to implement its Five-Year Strategy and to address the specific needs of special needs populations identified in the plan. One of the strengths of the delivery system is the existing collaborative network of service providers and housing providers. This includes the CoC, nonprofit and private developers, and other government agencies. In addition, the Department of Real Estate and Housing provides an experienced staff and well-organized program for initiating public programs that can be affirmatively marketed to special needs populations and persons experiencing homelessness.

Actions planned to foster and maintain affordable housing

The City of Wilmington plans to continue operating its Home Repair Program and First Start Home Buyer Program to help income-eligible households maintain their homes or attain their first one. The HOME program will continue to deliver quality affordable housing, with Cornerstone West rehabilitation three units on W 3rd Street in Wilmington's West Side and Habitat for Humanity of New Castle County constructing seven new townhouses in the Prices run neighborhood on vacant and underutilized land.

Actions planned to reduce lead-based paint hazards

In 2022, New Castle County received \$3.3 million for the No Lead Program, \$2 million for the Healthy Homes Production Grant Program, and \$8.7 million grant through the Lead Hazard Reduction Grant Program. The No Lead Program was established in 2019. While it was initially limited to five ZIP codes in the county, the additional funding will expand the program to all ZIP codes in the county, with an expected 330 housing units to receive assistance. Households with children under the age of 6, with pregnant women, or those residing in homes built before 1978 are eligible for the program.

The Healthy Homes Program is a county-wide program designed to identify hazards such as radon, carbon monoxide, lead hazard, damp & mold, leaking roofs, excess heat and/or cold, falls in bathroom, electrical hazards, structural collapse, lighting issues, pests & food safety, or unsafe windows and doors through a Healthy Homes Assessment. Eligible households include those with seniors over the age of 62 years, persons with disabilities, or children under the age of 18 years.

Additionally, WHA received \$5 million through HUD's Capital Fund Lead-Based Paint Program in September 2023 to reduce residential hazards in public housing. The program will attempt to remediate any lead contaminants from all WHA housing inventory over the five-year grant period.

Actions planned to reduce the number of poverty-level families

The City of Wilmington and local service providers have developed goals, programs, and policies to reduce poverty and improve access to affordable housing. In Wilmington's 2028 Comprehensive Plan, which was updated in July 2019, the City set forth a goal area for the creation of "Strong and Safe Neighborhoods." Goals under this umbrella addressing poverty and its effects include promoting walkable neighborhoods to improve access to jobs, services, and amenities; increasing access to quality housing that is affordable and offers choice; reducing neighborhood blight and crime; ensuring neighborhoods have access to high quality, welcoming public spaces and recreation; and supporting neighborhood character cohesion and pride. Established programs that will be continued or created to address this goal include the Neighborhood Stabilization Program, the Wilmington Community Advisory Committee, and partnerships between local businesses, institutions, and organizations.

These poverty reducing measures serve to improve access to affordable housing by preventing and mitigating the effects of poverty. Stakeholders mentioned high eviction rates and an inability to obtain

quality employment and wages as major barriers to obtaining affordable housing. The HOPE Commission's re-entry programs directly mitigate these barriers for the formerly incarcerated, and the RISE programs serve to prevent these effects through youth engagement. The City is looking to develop new measures and strategies to create more resilient communities, as outlined in their comprehensive plan.

Actions planned to develop institutional structure

To address the shortage of affordable housing options, both the City and WHA are pursuing options to increase the supply of housing. The City is continuing rehabilitation and home repair efforts along with partnerships with local developers to efficiently make use of federal and non-federal dollars. WHA is planning to apply for additional Section 8 units should they become available, pursue other housing resources besides public housing or Section 8 tenant-based vouchers, replace lost public housing units using the Section 32 Homeownership Program and mixed finance development, and use Replacement Housing Factor funds for acquisition and new construction.

Actions planned to enhance coordination between public and private housing and social service agencies

The City will continue to cooperate with various non-profit agencies and developers to address the specific needs of special needs populations identified in the plan. One of the strengths of the delivery system is the existing collaborative network of service providers and housing providers. This includes the CoC, nonprofit and private developers, and other government agencies. In addition, the Department of Real Estate and Housing provides an experienced staff and well-organized program for initiating public programs that can be affirmatively marketed to special needs populations and persons experiencing homelessness.

Program Specific Requirements

AP-90 Program Specific Requirements – 91.220(l)(1,2,4)

Introduction:

Community Development Block Grant Program (CDBG)

Reference 24 CFR 91.220(l)(1)

Projects planned with all CDBG funds expected to be available during the year are identified in the Projects Table. The following identifies program income that is available for use that is included in projects to be carried out.

1. The total amount of program income that will have been received before the start of the next program year and that has not yet been reprogrammed	0
2. The amount of proceeds from section 108 loan guarantees that will be used during the year to address the priority needs and specific objectives identified in the grantee's strategic plan.	0
3. The amount of surplus funds from urban renewal settlements	0
4. The amount of any grant funds returned to the line of credit for which the planned use has not been included in a prior statement or plan	0
5. The amount of income from float-funded activities	0
Total Program Income:	0

Other CDBG Requirements

1. The amount of urgent need activities	0
2. The estimated percentage of CDBG funds that will be used for activities that benefit persons of low and moderate income. Overall Benefit - A consecutive period of one, two or three years may be used to determine that a minimum overall benefit of 70% of CDBG funds is used to benefit persons of low and moderate income. HOME Investment Partnership Program (HOME)

Reference 24 CFR 91.220(l)(2)

1. A description of other forms of investment being used beyond those identified in Section 92.205 is as follows:
The City of Wilmington does not intend to use other forms of investment to fund HOME programs.
2. A description of the guidelines that will be used for resale or recapture of HOME funds when used for homebuyer activities as required in 92.254, is as follows:
In addition to the following information, the City of Wilmington's Program Policies and Procedures Manual and HOME Resale and Recapture Policy is also included in the Unique Appendix page 39.
The City of Wilmington imposes resale restrictions on the total HOME investment, which includes

direct acquisition, construction, or development contributions, soft costs, and project delivery costs (if any) made to both the developer and the homebuyer. Resale restrictions require deed restrictions and covenants, which are attached to the property and restrict the homeowner's sale of the property (during the period of affordability) only to a low-income family that will use the property as their principal residence. The term "low-income family" shall mean a family whose gross annual income does not exceed 80% of the median family income for the geographic area as published annually by HUD. As a guideline, the purchasing family should pay no more than 30% of its gross family income towards principal, interest, taxes, and insurance for a property on a monthly basis. The housing must remain affordable to a reasonable range of low-income buyers for the period described in the HOME regulations. At a minimum, the subsequent property owner will be subject to the remaining affordability period on the property. Resale guidelines are allowed in situations where there is a development subsidy only. If the homeowner receives a homebuyer subsidy, then the recapture guidelines must be followed. The original homebuyer, now the seller, must receive a "fair return" on their investment, which is defined as the homebuyer's initial investment of down payment and settlement costs and the cost of any capital improvements.

Recapture Guidelines

The amount of HOME funds subject to recapture is based on the amount of HOME assistance that enabled the homebuyer to buy the dwelling unit. This includes any assistance that reduced the purchase price from the fair market value to an affordable price but excludes the amount between the cost of producing the unit and the market value (development subsidy). For first-time homeowner loans, the City of Wilmington has adopted the recapture method, with forgiveness, based on the length of time the homebuyer occupies the home in relation to the affordability period.

Lease Purchase

The City of Wilmington has adopted a lease/purchase policy for the federally funded projects including CDBG and HOME. A copy of the policy is available for public inspection at the City of Wilmington Department of Real Estate and Housing.

Additional information may be found in The Department of Real Estate and Housing's HOME Policy and Procedure manual.

3. A description of the guidelines for resale or recapture that ensures the affordability of units acquired with HOME funds? See 24 CFR 92.254(a)(4) are as follows:
See previous question.
4. Plans for using HOME funds to refinance existing debt secured by multifamily housing that is rehabilitated with HOME funds along with a description of the refinancing guidelines required that will be used under 24 CFR 92.206(b), are as follows:
Not applicable. The City does not plan to refinance any existing debt secured by multi-family housing that is being rehabilitated with HOME funds.
5. If applicable to a planned HOME TBRA activity, a description of the preference for persons with special needs or disabilities. (See 24 CFR 92.209(c)(2)(i) and CFR 91.220(l)(2)(vii)).
Not applicable. A HOME TBRA activity is not planned.
6. If applicable to a planned HOME TBRA activity, a description of how the preference for a specific category of individuals with disabilities (e.g. persons with HIV/AIDS or chronic mental illness) will narrow the gap in benefits and the preference is needed to narrow the gap in benefits and services

received by such persons. (See 24 CFR 92.209(c)(2)(ii) and 91.220(l)(2)(vii)).
Not applicable. A HOME TBRA activity is not planned.

7. If applicable, a description of any preference or limitation for rental housing projects. (See 24 CFR 92.253(d)(3) and CFR 91.220(l)(2)(vii)). Note: Preferences cannot be administered in a manner that limits the opportunities of persons on any basis prohibited by the laws listed under 24 CFR 5.105(a). Not applicable, there is not currently a preference or limitation for any of the current rental housing projects.

Emergency Solutions Grant (ESG) Reference 91.220(l)(4)

1. Include written standards for providing ESG assistance (may include as attachment)
See attached written standards and the RFP process in the Appendix.
2. If the Continuum of Care has established centralized or coordinated assessment system that meets HUD requirements, describe that centralized or coordinated assessment system.
See Unique Appendix page 13.
3. Identify the process for making sub-awards and describe how the ESG allocation available to private nonprofit organizations (including community and faith-based organizations).
See attached written standards and the RFP process in the Unique Appendix page 19.
4. If the jurisdiction is unable to meet the homeless participation requirement in 24 CFR 576.405(a), the jurisdiction must specify its plan for reaching out to and consulting with homeless or formerly homeless individuals in considering policies and funding decisions regarding facilities and services funded under ESG.
See attached written standards and the RFP process in the Unique Appendix page 19.
Representation by a person who is homeless or formerly homeless is provided through the CoC.
5. Describe performance standards for evaluating ESG.
Each program is reviewed for meeting project goals and benchmarks during:
 - Desk Audits
 - Performed when draw requests are made
 - Monthly Performance and Direct Beneficiary Reports
 - Tracks and evaluates program performance outcomes
 - Onsite HUD compliance reviews
 - Conducted annually and includes review of supporting documentationIn addition, the City is working with the Continuum of Care and other Emergency Solutions Grant recipients in the state. A Quarterly Project Performance Report has been created to review 7 components for performance.

Housing Trust Fund (HTF) Reference 24 CFR 91.220(l)(5)

1. Distribution of Funds
 - a. Describe the eligibility requirements for recipients of HTF funds (as defined in 24 CFR § 93.2).

- b. Describe the jurisdiction's application requirements for eligible recipients to apply for HTF funds.

- c. Describe the selection criteria that the jurisdiction will use to select applications submitted by eligible recipients.

- d. Describe the jurisdiction's required priority for funding based on geographic distribution, which is a description of the geographic areas of the State (including areas of low-income and minority concentration) in which it will direct assistance during the ensuing program year.

- e. Describe the jurisdiction's required priority for funding based on the applicant's ability to obligate HTF funds and undertake eligible activities in a timely manner.

- f. Describe the jurisdiction's required priority for funding based on the extent to which rents for units in the rental project are affordable to extremely low-income families.

- g. Describe the jurisdiction's required priority for funding based on the financial feasibility of the project beyond the required 30-year period.

- h. Describe the jurisdiction's required priority for funding based on the merits of the application in meeting the priority housing needs of the jurisdiction (such as housing that is accessible to transit or employment centers, housing that includes green building and sustainable development features, or housing that serves special needs populations).

- i. Describe the jurisdiction's required priority for funding based on the location of existing affordable housing.

- j. Describe the jurisdiction's required priority for funding based on the extent to which the application makes use of non-federal funding sources.

2. Does the jurisdiction’s application require the applicant to include a description of the eligible activities to be conducted with HTF funds?

3. Does the jurisdiction’s application require that each eligible recipient certify that housing units assisted with HTF funds will comply with HTF requirements?

4. **Performance Goals and Benchmarks.** The jurisdiction has met the requirement to provide for performance goals, consistent with the jurisdiction’s goals established under 24 CFR 91.215(b)(2), by including HTF in its housing goals in the housing table on the SP-45 Goals and AP-20 Annual Goals and Objectives screens.

5. **Rehabilitation Standards.** The jurisdiction must establish rehabilitation standards for all HTF-assisted housing rehabilitation activities that set forth the requirements that the housing must meet upon project completion. The jurisdiction’s description of its standards must be in sufficient detail to determine the required rehabilitation work including methods and materials. The standards may refer to applicable codes or they may establish requirements that exceed the minimum requirements of the codes. The jurisdiction must attach its rehabilitation standards below. If the jurisdiction will not use HTF funds for the rehabilitation of housing, enter “N/A”.

In addition, the rehabilitation standards must address each of the following: health and safety; major systems; lead-based paint; accessibility; disaster mitigation (where relevant); state and local codes, ordinances, and zoning requirements; Uniform Physical Condition Standards; Capital Needs Assessments (if applicable); and broadband infrastructure (if applicable).

6. **Resale or Recapture Guidelines.** Below, the jurisdiction must enter (or attach) a description of the guidelines that will be used for resale or recapture of HTF funds when used to assist first-time homebuyers. If the jurisdiction will not use HTF funds to assist first-time homebuyers, enter “N/A”.

7. **HTF Affordable Homeownership Limits.** If the jurisdiction intends to use HTF funds for homebuyer assistance and does not use the HTF affordable homeownership limits for the area provided by HUD, it must determine 95 percent of the median area purchase price and set forth the information in accordance with §93.305. If the jurisdiction will not use HTF funds to assist first-time homebuyers, enter “N/A”.

8. Limited Beneficiaries or Preferences. Describe how the jurisdiction will limit the beneficiaries or give preferences to a particular segment of the extremely low- or very low-income population to serve unmet needs identified in its consolidated plan or annual action plan. If the jurisdiction will not limit the beneficiaries or give preferences to a particular segment of the extremely low- or very low-income population, enter "N/A."

Any limitation or preference must not violate nondiscrimination requirements in § 93.350, and the jurisdiction must not limit or give preferences to students. The jurisdiction may permit rental housing owners to limit tenants or give a preference in accordance with § 93.303 only if such limitation or preference is described in the action plan.

9. Refinancing of Existing Debt. Enter or attach the jurisdiction's refinancing guidelines below. The guidelines describe the conditions under which the jurisdiction will refinance existing rental housing project debt. The jurisdiction's refinancing guidelines must, at minimum, demonstrate that rehabilitation is the primary eligible activity and ensure that this requirement is met by establishing a minimum level of rehabilitation per unit or a required ratio between rehabilitation and refinancing. If the jurisdiction will not refinance existing debt, enter "N/A."
